INTRODUCTION

The company specializes in producing various types of series of oil-free bearings. Annual output of oil-free bearings of various specifications is more than 50 million sets. and each index ranks first. The mainly products HDB-JDB solid-lubricant-inlaid bearing series, Copper bushings, HDB-90 wrapped bronze bearing series, HDB-80 Bimetal bushings, SF series and so on. the company had passed the ISO9001:2000 Quality System Authentication in September 2001. Product quality in each index in technical supervision bureau sampling all qualified.

Products are widely applied in all kinds of mechanical transmission parts. Such as: automobile, motorcycle, electronics, electrical appliances, light industry, chemical industry, hydraulic mechanical and hydraulic machinery and other fields, win the user's consistent high praise. Customer satisfaction is our work behavior guide, our company appreciate to establish business relations, sincere cooperation and common with friends from all over the world.

INWAY MACHINERY

Equipments

The competition of enterprises is the competition of products and science and technology, but ultimately the competition of talents. The company attaches great importance to the training and selection of talents, and has always regarded attracting talents, cultivating talents and maximizing the role of talents as a strategic task of enterprises.

Our company has introduced the most advanced automatic production line of large copper products in the world, and completed the one-stop development from casting blank to finishing finishing.

Solid-Lubricant-Inlaid Bushings

1210

Thrust washer
bronze with non-liquid lubricant

1220

Oilless Guide bush,
bronze with non-liquid lubricant

1260

Oilless Guide bush
bronze with non-liquid lubricant ring

1261

Oilless Guide bush with collar
bronze with non-liquid lubricant

2212

Sliding Pad
Bronze with non liquid lubricant

2270

Came stroke Plate for driver and slider
Bronze with non liquid lubricant

2280

Prismatic Guide
Bronze with non liquid lubricant

2510

Sliding pad (steel)

Bronze-Wrapped Bushings

2710

Copper base powder metallurgy
bimetallic Guide plate

2780

Cam bottom plate

2810

Steel with sinterlayer Fe-Ni

2820

Fe-Ni base powder metallurgy Guide plate

1760

Steel with bronze coated internal bore

1770

Guide bush with collar, bronze plated

2821

Warpped Bronze Bearing Fe-Ni base
powder metallurgy Guide plate

2822

Fe-Ni base powder metallurgy Guide plate

Bimetal Bushings | Warpped Bronze Bearing
